

Experimental Design Diagram

Problem:	What is the effect of acid deposition on _____?
-----------------	---

Working Hypothesis:	
----------------------------	--

Null Hypothesis:	
-------------------------	--

Independent Variable:	
------------------------------	--

Repeated Trials:	
-------------------------	--

Dependent Variables:	
-----------------------------	--

How will I measure these?	
----------------------------------	--

Quantitative or Qualitative?	
-------------------------------------	--

Constants:	
-------------------	--

Steps in conducting the experiment:	
--	--
