Click here to place a bar

Click here to raise or lower font size.

These buttons allow you to make text Bold, Italic or Underlined.

Click here to toggle between Edit and Preview Modes

The screenshot shows the PageMill software interface. At the top, there is a title bar with the text "default.html". Below the title bar is a toolbar containing various icons for text alignment, indentation, image insertion, table insertion, and font formatting. Below the toolbar are two dropdown menus: "Paragraph" and "Default Font". Below these are several buttons for text formatting: a color selection button, a text color button, and buttons for Bold (B), Italic (I), and Underline (U). At the bottom right of the toolbar is a toggle button for Edit and Preview Modes. Below the toolbar is a text input field labeled "Title:" with the text "Teacher Name" entered. Below the title field is a large text area for editing. At the bottom of the window is a "Link To:" field and a "Link..." button. Arrows point from various text boxes to specific icons and fields in the interface.

The title of your page goes here.

You can drag this icon to other pages to create links.

Click here to change the color of your text.

Hyperlinks are typed here. Be sure to hit the return key when done.

This is the edit mode
